# DISCUSSION SUMMARY

## Home for Hope Foundation concern

**The devastating floods have caused significant loss of life, tragically claimed 135 lives in the western province. Additionally, many people have been displaced from their homes and forced to seek shelter in camps with the tents.**

**In response, the Home for Hope Foundation focused its efforts on addressing the health needs of the affected population, particularly emphasizing sanitation. We made every effort to ensure that everyone received necessary medical attention, especially children under the age of five.**

**Three years ago, we collaborated with various NGOs and institutions to implement a comprehensive program aimed at controlling Neglected Tropical Diseases (NTDs) in 17 districts of Rwanda. This program is reaching over 83,000 children.**
